DETAILED ACTION

Upon discovering a new reference (US 5941307), the examiner has withdrawn allowable subject matter indicated in office action mailed 10/2/02.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in-
- (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
- (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).
- 2. Claims 41-52, 55-66, 69-80, 83-104 are rejected under 35 U.S.C. 102(e) as being anticipated by Tubel (US 5941307)

Tubel discloses a detection arrangement (this is considered as the surface system (see col. 6 line 31); portable device (this is considered as platform 2-N or member (10)) and the communication arrangement (this is considered as data being transmitted between the platforms of member (10), see col. 9 line 30)
